

WATCH DISPLAY

A - CROWN

TIMESSETTING

This watch features hour and minute hands.

To set the time:

1. Locate the crown on your Stauer watch (diagram part A). Please note the three crown positions (0-1-2) in part A of diagram.
2. Before the watch is worn for the first time, wind the crown, by hand, 15 to 20 cycles by rolling the crown clockwise (away from you) while in the "0" (zero) position.
3. Pull the crown out to position "2" (diagram part A) which will allow you to position watch hands for proper time selection. Pay close attention to the dials. The bottom dial rotates to show the hour (in black); the top dial shows the minutes (in red). Once time is set, push crown back into original "0" (zero) position.
