

## WATCH DISPLAY

- A - DAY DIAL  
B - DATE DIAL  
C - CROWN  
D - SUN & MOON DIAL

## TIMESSETTING

This watch features three distinct watch face display dials: Day, Date and a Sun & Moon dial.

- 1. To set the Time and Day of the Week:** Pull the crown (part C) out to position "2" and turn the crown clockwise to advance hour and minute hands until the Day Dial is set to the desired day of the week.
- 2. The day dial will NOT move backwards** by turning the crown counterclockwise. Once the day is set, continue turning the crown until the correct time is set, taking AM and PM into consideration. Once the day and time are set push crown back into original "0" (zero) position.

### IMPORTANT NOTE:

- The Sun & Moon Dial moves correspondingly with the hour hand.
  - When setting the hour hand, check that the Sun & Moon dial is correctly set.
  - 3. To set the Date:** Pull the crown out to position "1" and turn the crown clockwise to set the Date Dial (part B). Once the date is set push crown back into original "0" (zero) position.
- IMPORTANT NOTE:**
- Do not set the Date Dial between 9pm and 1am. Otherwise, it may not turn in properly.

## FEATURES

- Precise quartz movement
- Cotswold™ mineral crystal case
- Exposition back
- Gold-finished stainless steel band
- Water resistant to 3 ATM
