

WATCH DISPLAY

A - CROWN

TIMESSETTING

This manual-wind watch features hour, minute, and second hands. Your mechanical watch will never need a battery. For proper time keeping, you will have to wind your watch daily, please turn the crown clockwise at position “0” until it feels tight.

1. To set the time: Pull the crown (diagram part A) out to position “1” and turn the crown to select the correct time. Once time is set, push crown back into original “0” (zero) position.
2. Before the watch is worn for the first time, wind the crown, by hand, 25 to 30 cycles each day by rolling the crown clockwise (away from you) while in the “0” (zero) position.

FEATURES

- Manual wind movement
- Stainless steel case and back
- Genuine black leather band

IMPORTANT

Please note, do not overwind your time-piece as it will damage the mainspring.
