

WATCH DISPLAY

- A - DAY OF THE WEEK DIAL
B - DAY OF THE WEEK
SETTING BUTTON
C - CROWN
D - MONTH SETTING BUTTON
E - DATE DIAL
F - MONTH DIAL
G - 24 HOUR INDICATOR

TIMESSETTING

This watch features hour, minute, and second hands, as well as dials indicating day of the week, month, date, and a 24-hour indicator.

- 1. Before the watch is worn for the first time, wind the crown, by hand, approximately 15-20 cycles by rolling the crown clockwise (away from you) while in the "0" position.**
- 2. To set the time:** Pull the crown (part C) out to position "2" and set watch hands for proper time selection. Once time is set, push crown back into original "0" (zero) position.
- 3. To set the Day of the Week dial (part A):** Press the Day Setting button (part B) once for each day to advance for proper day selection.
- 4. To set the Month dial (part F):** Press the Month Setting button (part D) once for each month to advance for proper date selection.
- 5. To set the Date dial (part E):** Pull the crown (part C) out to position "1" and roll it in the counter-clockwise direction (towards you) to advance the date gradually. Push the crown back to position "0" once finished.
- 6. To set the 24-Hour Indicator dial (part G):** The 24-hour indication dial does not require any individual setting as it is in sync with the time. This dial differentiates the time between AM and PM.

FEATURES
