SETTINGS

This watch features hour, minute, and second hands, as well a chronograph and a date window.

TO SET THE TIME

1. Pull the crown (part D) out to position "2" and turn it clockwise to set the hour and minute hands.
2. Once the correct time is set, push the crown back into original "0" (zero) position.

TO SET THE DATE

1. Pull the crown (part D) out to position "1" and turn it clockwise to set the date.
2. Please note that if the date is set between the hours of around 9:00 pm and 1:00 am, the date may not change on the following day.
3. Once the correct time is set, push the crown back into original "0" (zero) position.

MEASURING TIME WITH THE STOPWATCH

1. Press the Start/Stop Button (part B) to start the chronograph.
2. The chronograph can be started and stopped each time the Start/Stop Button (part B) is pressed.
3. Press the Reset Button (part F) to reset the chronograph, and the chronograph minute and second hands will return to zero.

The display range of the chronograph is 59 minutes and 59.999 seconds.

Operating the Chronograph**CHRONOGRAPH RESET**

(To be followed after replacing the battery)

This procedure should be performed when the chronograph second hand does not return to the zero position.

1. Pull the crown (part D) out to position "2."
2. Press the the Start/Stop Button (part B) once to set the chronograph second hand to the zero position.
3. Press the Reset Button (part F) once to set the chronograph 1/20 second hand to the zero position. Please note that the chronograph hands can be advanced rapidly by continuously pressing button "A" or "B."
4. Once the hands have been set at the zero position, reset the time and return the crown to its normal position.
