**TIMESSETTING**

This watch features four distinct watch face display dials: day, month, date and a 24-hour military sun/moon dial

1. Locate the crown on your Stauer watch (part C). Please note the three crown positions (0-1-2) in part C of the diagram.
2. Before the watch is worn for the first time, wind the crown, by hand, 15 to 20 cycles by rolling the crown clockwise (away from you) while in the "0" (zero) position.
3. **To Set the Calendar Date Window (part D):** Pull the crown out to the "1" position and rotate the crown counter clockwise (toward you) for proper date selection.
4. **To Set the Time:** Pull the crown out to position "2" (part C) which will allow you to set watch hands for proper time selection.

Once time is set, push crown back into original "0" (zero) position.

5. **To Set the Month Dial (part A):** On the the month button (part B), unscrew the pusher until the coin edge is flush with the top. Press the month button to advance the hand. The month hand will advance one month with each press of the button.
6. **To Set the Day of the Week Dial (part G):** On the the day button (part E), unscrew the pusher until the coin edge is flush with the top. Press the day button to advance the hand. The day hand will advance one day with each press of the button.
7. **The 24-hour Sun/Moon dial (part F)** displays every hour of the day and is an added feature that does not require setting. The sun/moon dial is set by setting the time. Take this into consideration when setting the time on your watch.
