

## WATCH DISPLAY

## TIMESSETTING

- A - Dual Time Dial
- B - 120 Second Subdial
- C - Sun/Moon Display
- D - Crown
- E - Hour Hand
- F - Minute Hand
- G - Open Heart Display

### TO SET THE TIME

Locate the crown on your Stauer watch (part B) and please note the three crown positions (1-2). Before the watch is worn for the first time, wind the crown, by hand, 10-15 cycles by rolling the crown clockwise (away from you) while in the "1" (one) position.

### TO SET THE TIME

1. Pull the crown (part D) out to position "2" and adjust the dual-time dial (part A). Turn the crown counter-clockwise until the small hand reaches 12.
2. Continue to turn the crown counter-clockwise to set the time difference between local (main dial) and dual time (Part A). **NOTE: Turn the minute hand 20 minutes less than the local time. (If the difference is 4 hours, turn the hands to 3:40).**

3. To adjust the local time (main dial), turn the crown clockwise and set the desired local time. **NOTE: The Sun/Moon display (Part C) will synchronize with the local time.**
4. Once the time is set, push the crown back into "1" position.

**EXAMPLE:** If dual time is 1 o'clock and local time is 8 o'clock (total difference of 7 hours):

1. Adjust the dual time (Part A) counter-clockwise until the small hand stops at 12.
2. Continue to set the time by turning the crown counter-clockwise to set the time difference between the two time zones (**remember to turn the minute hand with 20 minutes less than the total time. In this case, it will be 6:40.**)
3. Turn the crown clockwise to adjust the local time (main dial) to 8 o'clock.
4. Push the crown back into position 1.
5. This completes the time setting.

## FEATURES

- Automatic Movement: 22 Jewel
- Stainless steel caseback and crown
- Gold-finished stainless steel case
- Black mother-of-pearl dial
- Exhibition back and open heart front
- 120 second subdial with Sun/Moon function at 3 o'clock
