

WATCH DISPLAY

- A - Dual Time Dial
- B - 120 Second Subdial
- C - Sun/Moon Display
- D - Crown
- E - Hour Hand
- F - Minute Hand
- G - Open Heart Display

TIMESSETTING

TO SET THE TIME

Locate the crown on your Stauer watch (part B) and please note the three crown positions (1-2). Before the watch is worn for the first time, wind the crown, by hand, 10-15 cycles by rolling the crown clockwise (away from you) while in the “1” (one) position.

TO SET THE TIME

1. Pull the crown (part D) out to position “2” and adjust the dual-time dial (part A). Turn the crown counter-clockwise until the small hand reaches 12.
2. Continue to turn the crown counter-clockwise to set the time difference between local (main dial) and dual time (Part A). **NOTE: Turn the minute hand 20 minutes less than the local time. (If the difference is 4 hours, turn the hands to 3:40).**

3. To adjust the local time (main dial), turn the crown clockwise and set the desired local time. **NOTE:** The Sun/Moon display (Part C) will synchronize with the local time.
4. Once the time is set, push the crown back into “1” position.

EXAMPLE: If dual time is 1 o'clock and local time is 8 o'clock (total difference of 7 hours):

1. Adjust the dual time (Part A) counter-clockwise until the small hand stops at 12.
2. Continue to set the dual time by turning the crown counter-clockwise to set the time difference between the two time zones (**remember to turn the minute hand with 20 minutes less than the total time. In this case, it will be 6:40.**)
3. Turn the crown clockwise to adjust the local time (main dial) to 8 o'clock.
4. Push the crown back into position 1.
5. This completes the time setting.

FEATURES

- Automatic Movement: 22 Jewel
- Rose gold-finished stainless steel crown, case & caseback
- Crocodile embossed black leather band
- Sun/Moon subdial with small seconds at 3 o'clock
- Dual time subdial at 9 o'clock
