

WATCH DISPLAY

- A - Date Dial
- B - Crown
- C - Moon Phase Dial
- D - Day of the Week Dial

TIMESSETTING

TO SET THE MOON PHASE

The moon dial represents the age and shape of the moon during each phase. Use the moon dial only as a guide to the age or phase of the moon when reading and setting the watch.

1. Check the age of the moon by referencing the newspaper or internet. Pull crown (part B) out to position "1" and rotate clockwise (away from you) to advance the Moon Phase Dial (part C) to the correct moon phase.

TO SET THE TIME AND DAY OF THE WEEK

Please ensure you have correctly set the moon phase prior to adjusting the time.

1. Pull the crown (part B) out to position "2."
2. Rotate the crown clockwise (away from you) to advance the hour and minute hands, as well as the Day of the Week dial (part D). The Day

TIMESSETTING

of the Week can only be set by advancing the hour hand by 24 hours per day.

*Always rotate your hour and minute hands in a clockwise direction to set the time. If you rotate the hands in a counter clockwise position, it may not always change the day correctly.

3. Press crown (part B) back to position "0" to finish setting the time.

TO SET THE DATE

1. Pull the crown (part B) out to position "1."
2. Rotate the crown counter-clockwise (towards you) to advance the Date Dial (part A).

3. Press crown (part B) back to position "0" to finish setting the time.
